

Joseph Falkowski

“Joe”

Graduate Institution: University of North Carolina at Chapel Hill

Location: Chapel Hill, NC

Graduate Discipline: Inorganic Chemistry

Hometown: Spring Hill, FL

Research Interests:

Research Interests include the development of new catalytically active solid state materials for enantioselective and photo catalysis

About me:

Joseph is a graduate of the University of Florida and entered into the graduate program at UNC-Chapel Hill in 2008. He is currently a rising third year PhD candidate and aspires to lead a research team in the public or private sectors after the completion of his graduate career. He believes that the sciences can offer real world solutions to many of the worlds ongoing problems (ie: energy, food/water shortages) and that it is the responsibility of the research community to strive to augment society for its benefit.
