

Kyle Fox

Graduate Institution: University of Illinois

Location: Urbana, IL

Graduate Discipline: Computer Science

Hometown: Marion, IL

Research Interests:

Algorithms and theory including data structures and computational topology. Past projects include work on potentially optimal dynamic binary search tree algorithms and research into maximum flow algorithms for surface embedded graphs.

About me:

I am a Ph.D. student at the University of Illinois in Urbana/Champaign hoping to achieve a tenure track faculty position after I graduate. Most of my work falls under the realm of theoretical computer science. I am a member of the Tau Beta Pi Engineering Honor Society and my undergraduate work in library science technology received the Mellon Award for Technology Collaboration in 2008. Some of my hobbies include keeping up with the latest technology news, singing, swing dancing, and playing video games.
