

Kingsley O. Odigie

Graduate Institution: University of California, Santa Cruz

Location: Santa Cruz, CA

Graduate Discipline: Environmental Toxicology

Hometown: San Jose, CA

Research Interests:

I am interested in investigating the interplay of climate change, environmental contaminants, environmental resources, and human health.

About me:

Undergraduate Education: I graduated from San Jose State University with a double major in Microbiology and Forensic Science, and a minor in Chemistry.

Career Goal: I am interested in becoming a research faculty at the university level, and promoting programs that recruit underrepresented individuals to participate in the scientific community.

Hobbies/Personal Interests: Some of my interests include outdoor photography and travelling.

Professional Associations: I am a member of American Geophysical Union.
